What is this product?

Type

This product is a sub-fund of Tikehau Fund, a company organized as a variable capital investment company (société d'investissement à capital variable or “SICAV”) under Part I of the Investment Fund Law. The prospectus and periodic reports are prepared for the entire SICAV. The assets and liabilities of the various sub-funds are segregated. In addition, any shareholder has the right to exchange their shares in the Sub-fund for shares of other sub-funds of the SICAV subject to the conditions outlined in the SICAV's prospectus.

The Sub-Fund is subject to the approval of the Commission de Surveillance du Secteur Financier (CSSF).

Term and termination (by the initiator)

The SICAV was created for an indefinite term. The Sub-fund may be dissolved early at the initiative of the Fund's board of directors. The terms for dissolving the Sub-fund are described in more detail in the SICAV's articles of association.

Objectives

Tikehau International Cross Assets (the “**Sub-fund**”) is a sub-fund of Tikehau Fund (the “**Fund**”). For this share class, the Sub-fund aims to outperform ESTR + 225 bps, net of management fees, over a recommended minimum investment horizon of five years. Investors should note that the Sub-fund is actively managed and uses a benchmark index solely as an ex-post performance indicator and, where relevant, to calculate the performance fee.

The investment strategy of the Sub-Fund is to manage, on both an active and discretionary basis, a diversified portfolio of equity (between -20% and 100% of the Sub-Fund's net assets) and debt instruments (between 0% and 100% of the Sub-Fund's net assets), from all economic sectors and geographical areas.

The Sub-Fund may invest in securities belonging to the High Yield category (rating below BBB- according to S&P/Fitch or Baa3 at Moody's), which is more speculative in nature and has a higher risk of default, in return for a higher yield. The Sub-Fund may also invest up to 10% of the Sub-Fund's net assets in unrated debt securities. In order to assess the credit quality of these assets, the Management Company conducts its own credit analysis on debt securities that is independent of the ratings issued by these agencies. The DV01 (Dollar Value of a basis point) which measures the sensitivity of the portfolio to 1 basis point shift in interest rates, is between -0.1% and +0.1% of NAV. The Sub-Fund may also invest in government bonds. The Sub-Fund may invest up to 10% of its net assets in each of the following categories (i) distressed/defaulted securities, provided that if distressed/defaulted securities represent more than 10% of the Sub-Fund's net assets following a downgrading of the issuers' ratings, the exceeding portion will be sold as soon as possible, under normal market circumstances, and in the best interest of Shareholders, (ii) shares of listed or unlisted securitization companies and units or shares of UCIT and/or UCIs and/or ETFs (including those managed by the Management Company). In addition, the Sub-Fund may invest in subordinated financial bonds, including contingent convertibles (CoCos), within 20% of its net assets.

The net exposure to currencies other than the reference currency of the Sub-Fund may be up to 100% of the Sub-Fund's net assets. The Sub-Fund's exposure to currency risk may reach 100% of the net assets.

The Sub-Fund may use derivatives (including embedded derivatives traded on regulated, organised or over-the counter Eurozone and/or international markets) to (i) hedge the portfolio against, or gain exposure to, certain risks (interest rate, equity credit, foreign exchange, volatility and dividend), (ii) take relative credit positions (one specific issuer versus another, a specific issuer compared to a basket of issuers, a sector or a market index, between sectors/indices), (iii) implement directional and relative convictions on interest rates, credit, equity, foreign exchange, volatility and dividends. The Sub-Fund may also manage performance replication derivatives, including but not limited to, Total Return Swaps (TRS) or contracts for difference (CFD). Under normal circumstances, it is generally expected that the principal amount of TRS will not exceed 40% of the Sub-Fund's net asset value.

Shareholders may redeem Sub-Fund units or shares daily on request, in accordance with the provisions of the prospectus.

What are the risks and what could I get in return ?

Summary risk indicator:

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Recommended holding period: **5 years**

The risk indicator assumes you keep the product for 5 years depending on the recommended holding period. The actual risk may be very different if you choose to exit before recommended holding period and you may get back less in return.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 3 out of 7, which is a category of risk of between low and medium. This rates the potential losses from future performance at between low and medium, and if poor market conditions unlikely impact our capacity to pay you. This product does not include any protection from future market performance so you could lose some or all of your investment. For more information on these risks, please refer to the prospectus.

The following risks borne by the Sub-Fund and not taken into account in the indicator may have a negative impact on the Sub-Fund's net asset value: Sustainability risk, Risk of loss of capital, Liquidity risk, Credit risk, Counterparty risk .

For a description of all the risks, please refer to the Sub-Fund prospectus. The materialisation of one of these risks could lead to a drop in the net asset value of Sub-Fund.

PLEASE NOTE: THIS FUND MAY INVEST UP TO 100% OF ITS ASSETS IN BONDS WITH A LOW CREDIT QUALITY; IT THEREFORE CARRIES A VERY HIGH CREDIT RISK.

Performance scenarios:

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average and best performance of the product over the last 10 years.

Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	<i>There is no minimum guaranteed return. You could lose all or part of your investment.</i>		
Stress	<i>What you might get back after costs</i>	4,740 €	7,353 €
	Average return each year	-52.60%	-5.96%
Unfavourable	<i>What you might get back after costs</i>	9,128 €	9,730 €
	Average return each year	-8.72%	-0.55%
Moderate	<i>What you might get back after costs</i>	10,219 €	11,229 €
	Average return each year	2.19%	2.34%
Favourable	<i>What you might get back after costs</i>	11,764 €	12,076 €
	Average return each year	17.64%	3.85%

This table shows the money you could get back over 5 years under different scenarios, assuming that you invest 10,000 €. The scenarios shown illustrate how your investment could perform. You can compare them with the stress scenarios for other products. The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred during the period: 23/03/2015 - 23/03/2020.

The moderate scenario occurred during the period: 16/12/2019 - 16/12/2024.

The favourable scenario occurred during the period: 06/01/2015 - 06/01/2020.

What happens if Tikehau Investment Management is unable to make the payments?

The Sub-Fund jointly owns financial instruments and deposits separately from the Management Company. If the latter failed, the product's assets held by the custodian would not be affected. If the Custodian failed, the risk of a financial loss on the product would be mitigated by the legal segregation of the custodian's assets from the product's assets. Any losses are not covered by an investor compensation or guarantee system.

What are the costs ?

The person who sells you this product or who provides advice on it may charge you additional fees. If so, said person shall inform you of such fees and of the impact they have on your investment.

Costs over time:

The tables show the amounts taken from your investment in order to cover the various types of costs. These amounts depend on the amount that you invest, the time during which you hold the product, and the product's returns. The amounts indicated here are illustrations based on an example of invested amount and various possible investment periods.

We have assumed that:

- during the first year you would get back the amount that you invested (0% annual return);
- for the other holding periods the product performs as shown in the moderate scenario;
- 10,000 EUR are invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	119 €	684 €
Impact of annual costs (*)	1.19%	1.22% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the end of the recommended holding period your average return per year is projected to be 3.6% before costs and 2.3% after costs. We may share the costs with the person selling the product to you to cover the services they provide to you. This person will inform you of the amount, where applicable.

Composition of costs:

One-off entry or exit costs		If you exit after 1 year
Entry costs	We do not charge an entry fee for this product, but the person selling you the product may do so.	until 0 €
Exit costs	We do not charge any exit costs for this product.	0 €
Ongoing costs taken each year		
Management fees and other administrative or operating fees	0.89% of the value of your investment per year. This estimate is based on actual costs charged last year.	89 €
Transaction costs	0.20% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	20 €
Incidental costs taken under specific conditions		
Performance fees (and incentive fee)	10.00% of the annual performance net of management fees greater than that of the benchmark index ESTR + 225 bps over a five-year reference period, provided that this performance fee is greater than 0 during the reference period in question. The effective amount will vary depending on how well your investment performs.	10 €

How long should I hold it and can I take money out early ?**Recommended holding period: 5 years**

The recommended holding period is equal to the minimum period recommended to maximise the probability of achieving the strategy's objectives. You may request the redemption of your units on any day. Redemptions are carried out daily. You may dispose of your investment before the maturity date, but redeeming your units before the end of the recommended holding period may be detrimental to your return, increase the risks associated with your investment, and lead you to incur a capital loss.

The Management Company may implement a gate mechanism to cap redemptions if one or more investors request the redemption of more than 10% of the Sub-Fund's outstanding Net Asset Value. Please refer to the "Subscription and redemption procedures" section of the Prospectus for more information about this mechanism.

How can I complain?

You can make a complaint about the product or the conduct (i) of the Management Company, (ii) of a person advising about the product, or (iii) of a person selling the product, by sending an email or a letter to the following people, depending on the case:
